Designing a Character: Step 7-Pose Your Character

To begin with, we will plot eight equal parts. You can also add a vertical line of flow through your eight segments, showing the posture and positioning of your body's figure. This almost acts like your drawing's spine.

The eight parts represent different elements of the human body;

- The head
- The shoulders and upper chest
- The lower chest and stomach
- The pubic bones
- The thighs
- The knees
- The shins
- And finally, the feet
